

# **APPENDIX 6**

## **RECORDED MONUMENTS/SITES AND MONUMENTS RECORD**

## Appendix 6

### **Record of Monuments and Places (RMP):**

The principal legal mechanism for the protection of archaeological monuments is the Record of Monuments and Places (RMP) which was established under Section 12 of the National Monuments (Amendment) Act, 1994. Section 12 (3) of the 1994 Act provides that the owner or occupier of a monument included in the Record or any person who proposes to carry out, or to cause or permit the carrying out of any work at or in relation to such a monument, he or she shall give notice in writing to the Minister for Housing, Local Government and Heritage of the proposed works at least two months in advance and shall not, except in the case of urgent necessity and with the consent of the Minister, commence the work until two months after the giving of notice. The Zone of Notification is identified on [www.archaeology.ie](http://www.archaeology.ie).

### **Sites and Monuments Record (SMR)**

The Sites and Monuments Record is an online database maintained by the NMS of all known or suspected archaeological sites and monuments. The Historic Environment Viewer (HEV) is the National Monuments Service's online interactive map/search facility, providing access to all records stored on its national database of sites and monuments. Although the archaeological resource is finite sites continue to be discovered. Where new development is being considered, it is therefore advisable to visit the HEV at <https://maps.archaeology.ie/HistoricEnvironment/> in order to assess the archaeological potential of a site.

SMR Number	Classification	TOWNLAND
DU001-001----	Ritual site - holy well	TOBERSOOL
