

### PA SH 15.3

Include new Green Infrastructure mapped objective (GIM 30) as follows: Implement a strategy to establish a multi-function Green Infrastructure system, promoting an extensive Nature Based green corridor to meet challenges of Climate Change, linking to existing green infrastructure in a sensitive way to provide for community/public access and expand eco-tourism potential, including a greenway with connections to Swords town centre. To promote and enhance physical and visual connections with the Fingal Uplands area and local historic landscape characteristics, while protecting green areas and Bio-diversity.
