Subject: Project Ref PI06F.300840 (Portmarnock to Baldoyle Cycleway/Walkway)

Dear Planners,

I wish to support the application by Fingal Co Co to construct this much needed cycleway/walkway. There is currently no continuous footpath to enable pedestrians to safely go from Portmarnock to Baldoyle, which restricts visual access to a area of special conservation and birdwatching. Also the road is quite narrow for long stretches which makes it very hazardous not only for cyclists but also for motorists trying to provide the necessary overtaking space..

The project also involves development of a much needed park facility in the area especially having regard to the new housing currently under construction and planned for the future in the immediate adjoining area. This project by Fingal has been much anticipated by residents in Portmarnock and Baldoyle for many years..

Accordingly I trust the Bord will give the green light to this project.

Yours sincerely
John Fay
