## Tráchtanna:

### See submission below

**Caibidil:** Part 2 » Theme 1: People and  
Place

Dear Sir,

It is a waste of time to make a submission for the above development plan since I have already made two previous written submissions for the realignment of the R132 and the Metro plan and I have received no report of the outcome of either. I have noticed now that there are planning applications to An Bord Plannala on posts indicating that your preferred proposal for the Drynam road to be rerouted to the west of Foxwood Estate and exit onto the Malahide Road. **A total madness as it does not consider the already congested Malahide Road with traffic jams a constant**, Heavy Goods vehicles have difficulty in passing, extra buses and the increased traffic will help to make the Malahide Road just one long carpark. **Your logic beggars belief.**

God help us residents.

I would like to point out that I submitted written submissions for both the R132 and the Metro proposal as I am not familiar with PDF files or web sites, as such I should have received written reports in reply. You have infringed on my rights.

Yours

Anne James
