Atmosphere Air Pressure

Caibidil: Noise Abatement Objective (NAO) for Dublin
Airport

When Aircrafts are taken off on the main runway to the West, reaching a certain height they either take a right or left going East.

Making a left turn, the noise of the aircrafts echo for a good 4 minutes after taking off.

Is the atmospheric air pressure taking into consideration when measuring noise from aircrafts.

The effect of atmospheric air pressure contributes to noise being carried.
