Aighneacht: Lusk By-Pass and M1 Access

Comhairliúchán:

Draft Fingal County Development Plan 2023-2029

Tráchtanna:

Lusk By-Pass and M1 Access

Caibidil: Section 2: Appendices » Appendix 4: Infrastructure Capacity Assessment

Propose a new access road is built to the M1 from Skerries - Lusk Road. This would allow residents of Skerries and Loughshinny to access M1 without having to drive through Lusk and would also serve residents of Lusk and relieve congestion around Blake's Cross area, which has seen more than its fair share of road traffic collisions over the years. Residents on north side of Lusk wishing to access the M1 would also likely take this route alleviating congestion through Rush and parts of Lusk also.

Electricity Black and Brown Outs in Lusk

Caibidil: Section 1: Written Statement » Chapter 11: Infrastructure and Utilities

Before the development plan is implemented and further areas of lands rezoned I would suggest you check with the electrical grid distributors and operators to confirm there is sufficient capacity to meet the additional development. Lusk currently experiences regular black and brown outs and no doubt there is some upgrades required to the electrical infrastructure serving the town to allow for further development to continue.
