Aighneacht: A Development Plan for a Sustainable Fingal

Comhairliúchán:

Draft Fingal County Development Plan 2023-2029

Fossil fuel infrastructure

Caibidil: Section 1: Written Statement» Chapter 14: Development Management
Standards

The Plan should provide for the refusal of applications for new or expanded fossil fuel infrastructure whether stand-alone or incorporated in buildings except where it is demonstrated that the proposal is consistent with a rapid decarbonisation trajectory. This is necessary to avoid the creation of further stranded assets and the imposition of additional decarbonisation costs in the coming decades.
