Green area for cultivating own fruits and vegetables

Caibidil: Section 4: Maps » Sheet 3: Fingal Central

Poweratown allotments is great place for people who loves spend time actively outdoor while looking after their own vegetables and fruits. This is great place for people to socialise also. My kids enjoy very much if they can help with the seeds and they love to watch how the plants grown and they cannot wait to pick the fruits or vegetables. It is amazing. There are no plots available in neighbourhood. This place should be preserved for future generations.
