## Duty of active dissemination of environmental information

**Caibidil:** Section 1: Written Statement» Chapter 9: Green Infrastructure and Natural Herit...

The Council has a good record of dissemination of information, particularly in using information technology to make information available to the public.

The range of information provided needs to expand to give people easy access to the environmental information gathered by and held by the Council, in order to enable all involved to better protect the environment.

This is in line with the duty of active dissemination in the Access to Information on the Environment Regulations.

The Development Plan should commit to this active dissemination approach.
