2.3

Previous submissions have been made on my behalf or by me to this Development Plan and the previous Development Plan 2017-2023. I am looking to have an area of land which we have owned for nearly 100 years and previously farmed amended from HA to RU. This land is right at the start where the HA starts at Walshestown Lusk Co. Dublin (K45 E627). It is of no visual amenity or interest to the general public as you can see in the attachment below. In this proposed development plan there are several areas within Fingal that are changed from HA to RU and I would consider my application and previous submissions just as essential as these submissions and I feel I have been given zero consideration. I have already waited 8 years for and including the last development plan for submissions to be open. I have also enquired and been told "Oh you'll just have to wait for the next Development Plan from a Local TD" which I think is an absolute disgrace. I have a Bona Fide right to want to live where I grew up especially when we have owned the land through 3 Generations. Please have some consideration at least for this submission. Thank you.
