Subject: West Rush stream

Dear Sir/ Madam

I live right beside where the west Rush stream enters the [REDACTED]
A second Culvert was promised as detailed on CFRAM and the 2017-2023 Strategic flood risk assessment for the Fingal Development plan 2017-2023 item 6.1.7. Rush

Every night of heavy torrential rain I with my neighbour Alan Carthy have to watch every hour any debris coming down and blocking the river and flooding our driveway.... which it did many times before The second Culvert would allow us sleep through those nights

Regards
