Dear Sirs

Re, Objective 6 Local Development Plan 2023 - 2029.

I wish to make an objection to the above " to provide and facilitate development of glamping accommodation allowing for a permanent structure in an associated guesthouse and service buildings. This appears to be situated in what is zoned as a High Amenity Area.

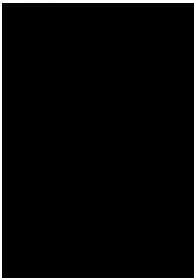

My concerns are that this development will be an eyesore on this landscape. The facility itself will involve a lot of lighting possibly all night which will effect the local residents,

Another concern is that i'm not aware of the size or scale of the guesthouse and I feel this could turn into a boutique hotel. Glamping included this will involve a large amount of traffic. Also glamping by its nature could and does attract groups of younger people probably causing increased noise levels. Where will traffic enter and exit.?

I would ask you to take these concerns into consideration when making any decisions.

Yours sincerely.

Una Waldron
