I am writing to strongly object to the rezoning of lands on Turvey Avenue, DONABATE, Co DUBUIN - Street No 7 Donabate / Portlaine - Draft Fingal County Development Plan proposed to rezone from Land Use Zoning Objective "GE" to Land Use Zoning Objective to Rural "RU"

The proposed rezoning negatively affects a site belonging to residents who have lived in the area for generations and has caused anxiety and upset. The other site had previous planning permission applications. Neither of these land owners were aware that these lands were going to be rezoned. This rezoning will affect this owner's livelihood in the future.

A motion to make these lands rezoned was put forward by one resident on the road out of 12 ~~the~~ houses. Without any discussion with his neighbors. (The majority of the residents).

In fairness to the two land owners we now ask for this zoning to be retained to "BE" in the current Final Development Plan.
