

I Jim Scully would like to make a submission to the Fingal development plan. I propose that the state lands at Thornton Hall be allocated for housing for the people of St Margarets .The parish and its inhabitants are unable to build or buy property in their own area due to airport restrictions on new homes and Co Council policy of acquiring any houses that come up for sale for resettlement of travellers. As a result the parish is losing all its young people to Swords/Ashbourne and further afield this obviously has detrimental effects on schools sport clubs all things that keep a community vibrant .Thornton Hall is a logical solution to these problems as it lies in the St Margarets area. The inhabitants of this parish have sacrificed a lot for expansion of the airport and related industrial development  
Yours sincerely Jim Scully
