Swords

Co. Dublin

21st December 2022

Dear Sir/Madame,

I would welcome and support the proposed amendment number PA SH 6B.1. to the Draft Fingal County Development Plan 2023-2029. I would be delighted to see this area developed in a feasible, viable and sustainable manner such as this.

In doing so, I believe it most definitely supports the new Draft Development Plan approach towards sustainable development through directing rural dwellings away from one off housing towards a more consolidated form of development typically provided on infill sites in villages and rural clusters in Fingal.

There is a total lack of rural clusters available in this area. I urge you to support and include this in the new development plan so that this young farming family from Rush can remain rural dwellers and continue to support the rural area to prosper and develop in a meaningful and sustainable way over the next five years.

Kind Regards,

Daniel Butterly
